Dear Sir/Madam,

I am excited to join MS Security & Personnel. With extensive experience in maritime and corporate security, I bring strong leadership, crisis management, and risk assessment expertise that align well with the demands of this role. While I may not hold a formal degree in security studies, my hands-on experience and proven ability to implement and enforce security protocols make me a strong candidate.

During my employment as a Royal Security Officer at Royal Caribbean, I oversee security operations onboard a cruise vessel, ensuring passenger and crew safety, conflict resolution, and compliance with ISPS Code regulations. My roles at both MS Security (former) and Royal Caribbean (current) requires vigilance, rapid decision-making, and strong interpersonal communication to address security incidents ranging from minor disputes to serious cases such as assaults and medical emergencies.

Prior to this, my experience at the Public Rail Agency of South Africa further strengthened my expertise in risk assessment, surveillance, and emergency response within public infrastructure settings. My ability to evaluate threats, implement security measures, and adapt to high-pressure situations has allowed me to effectively protect assets, personnel, and the public throughout my career.

I am highly organized, detail-oriented, and committed to upholding safety standards in any environment. My adaptability and ability to handle diverse security challenges enable me to respond effectively to threats while maintaining a calm and professional presence. I welcome the opportunity to discuss how my experience and skills align with your security needs. Please feel free to contact me at your convenience. Thank you for your time and consideration.

Best regards,
Pierre van Rensburg
